Enviva-Cottondale Truck Dump Addition

Company:

Enviva

Location:

Cottondale, FL

Date of Completion:

October 2015

Description:

Enviva-Cottondale, formerly Green Circle BioEnergy, selected BRUKS to provide the complete engineering and equipment supply for a second 75' Truck Dump Platform and 16' wide Underpile Chain Reclaim Hopper with a 6,000 ft³ capacity. The new truck dumper addition is adjacent to an existing BRUKS Truck Dumper, in operation since the plant opened in 2008. BRUKS designed and supplied the full wood yard system, featuring log handling and chip reception, an integrated chip dryer system and all conveying and storage equipment.
