

## CUSTOMER CASE STUDY

# Rock-Tenn Company Demopolis Wood Yard

### Company:

Rock-Tenn Company

### Location:

Demopolis, AL

### Date of Completion:

June 2012

### Description:

BRUKS Rockwood was selected to expand Rock-Tenn's Demopolis wood yard which already included a vintage 1998 BRUKS COSR. Two new Stacker/Reclaimers (COSRs) with 2,000,000 ft<sup>3</sup> and 1,000,000 ft<sup>3</sup> of storage were added in 2011. The combination of the (3) three stacker reclaimers provides Rock-Tenn with a fully automated storage system. This design virtually eliminates the need for costly manual reclaim operations. In addition, improvements are realized in chip quality and overall operating efficiencies. Upon completion of this installation, Rock-Tenn now has (5) five of the BRUKS COSR's in their equipment portfolio.
